The quality of this blue is unequalled, being purely vegetable, it will not injure the fabrics, and does not stain the water.

The quantity in each box is more than many other kinds of blue put up in boxes. One small box is equal to four quarts of liquid blue.

There is no danger from freezing, as in the case of liquid blue.

With our patent box there is no waste, and no accident can occur as the blue is used without removing the cover.

For neatness and convenience it surpasses all other kinds of liquid or box blue.
